We will focus on teaching the child mindfulness (how to have a quiet mind and be present in all they do). The curriculum is age appropriate and will help the child understand how to practice mindfulness in their daily life. When the child participates in the art project, they will focus and bring the tools learned from yoga to be deliberate and present. The mind body connection is an important tool to understand at any age, so we hope to facilitate in building confident youth who understand these mindfulness practices. www.playphx.org
