Virtual

Present: Melissa Molzhon, Matt Lersch, Nannette Vasquez, Rose Fonseca Zavala, Tara Slade, Patrick Cogan, Nani Vaerangely Torres, Kiara Adams, Kathy McDonald, Stephanie Ritscher

ML: Title I, nchs is a title 1 school, we can use some title one funding for our school. Going through the process, to get info on how we're doing as a school. We've got a good well rounded team. We'll identify two focus areas for the school year, always monitoring on how we're doing on these areas. We've visited on we're doing on our current plan. Asking for students, parents and families to see how we're doing, a survey will go out. Will go one until March. Our hope is to have a plan that we can share, looking to do that with school council and our community.

ML: GRADES

How we're adapting. One of the strangest semesters ever! Hopefully won't ever be like this again. Know that grades are a big deal for our students. Knowing this we've worked with school leadership team, admin team, department leads, to give our students some extra time on learning and for students to give evidence that they are learning. Two marks, CR=Credit, students have completed enough things to show they've gained skills to get the credit. Credit works at college level and will show on transcript. Some students may show an NC=No Credit, shows that student has not gained those credits. Here's the skills we've worked on and here's what you need to show that you have the skill. Student needs to show they have enough evidence to earn the credit. Some skills go from one semester to another, if student shows evidence that teacher can give credit for 2nd semester from evidence shown from 1st semester. More communication will be sent out to students and parents. Question? Is this a good idea? Student response from council is yes. Gives students more time to earn the credit and show that they understand what they're doing.

Rose: Student Report:

STUGO-Seitzberg has been very supportive. Asking for grade checks and staying on top of students. Final project, how we can do something better here at NC for students, staff, building leadership skills. What can we do from home to build up our school. Doing it individually, not a group. Keeping kids moral up.

Slade: random thought, virtual assembly, is this a possible.

Nani: We talked about this in STUGO.

MM: PV did something like this. Contact them to get some info on how they put it together.

Slader: That is something that's been missing this year.

MM: Is there a limit to get all on a google meet/ web ex???

ML: Yes, I think so.

Rose: I'll network with a friend how's in STUGO at PVHS.

MM: Registration
